## MODEL NO.

### HB Series

#### Application:

Special designing for universal laboratory use.

#### Related Standards:

STANDARDS

#### Features:

- Many sizes to fit your application needs
- All stainless steel construction
- Adjustable thermostat with power on light
- Bottom mounted digital ultrasonic transducers
- 42 kHz Simultaneous Multi-Frequency ultrasonic, Capable of Continuous Operation
- Better than mechanical cleaning, Penetrates into cracks and crevices, Suited to a wide variety of applications
- Best where extreme cleanliness is required
- Supplied with auto-temperature keeping function
- Equipped with drainage valve to drain waste solution

#### Key Specification:

- Temperature room temp~100℃
- Tank Size 470\*340\*360mm
- Ultrasonic power: 900W single phase
- Ultrasonic Frequency: 42KHZ
- Heater Power: 3KW 3-Phase
- Power: 380/220 50/60HZ
